SUMMARY

Fresh graduate of Information Technology with a keen interest in web application development. Proficient in using PHP (Laravel), JavaScript (React.js), and MySQL to build full-stack applications. Experience developing school management and inventory systems. Adaptable, detail-oriented, and eager to learn.

EXPERIENCE

Web Developer
Inventory Management System

- Developed comprehensive inventory management system using Laravel 10 and MySQL, implementing complete CRUD operations for products, categories, suppliers, and stock movements with automated real-time stock tracking and low stock alert notifications.
- Built responsive dashboard with analytics featuring Chart.js integration for stock movement visualization, Bootstrap 5 UI components, and mobile-responsive design supporting real-time monitoring of inventory levels and business metrics.
- Implemented secure authentication and data management using Laravel Sanctum for user authentication, CSRF protection, input validation, and optimized database schema with proper indexing for enhanced performance and security.
- Created automated stock control system with stock-in/stock-out transaction recording, complete audit trail, supplier management integration, and automatic stock quantity updates to streamline inventory operations.

IT Production   01/2024 - 01/2025
Mitra Kasih Perkasa

- Assisted in the testing and quality control of MPOS and QPROX devices to ensure software reliability and functionality.
- Supported the IT Production team in system troubleshooting and resolving technical issues.
- Collaborated with senior engineers to improve workflow efficiency and maintain production standards.
- Achieved an Internship Certificate with Grade A for outstanding performance during the program.

EDUCATION

Computer Science   08/2021 - 12/2024
Unika Soegijapranata - Bachelor Degree's

- GPA: 3.69/4.00
- Successfully completed final project on Face Recognition using CNN Algorithm, demonstrating skills in machine learning and computer vision.
- Awarded Grade A Internship Certificate at Mitra Kasih Perkasa as IT Production, recognized for excellent performance.
- Graduated with honors: Very Satisfactory

SKILLS

Tools & Version Control: Git, GitHub, VS Code

Database: MySQL

Programming Languange : HTML, CSS, Javascript, PHP, SQL

Framework & Library: Laravel, React.js, Bootstrap, Tailwind CSS

LANGUAGES

English	Intermediate	Indonesian	Native
